

4th EDITION
**CUTTING EDGE TECHNIQUES
AND CONTROVERSIES IN
SHOULDER ARTHROPLASTY**

4-5 OCTOBER 2024,
Florence

COURSE CHAIRMEN

G. Porcellini MD (Italy) J. Sperling MD, MBA (United States)

INVITED FACULTY

A. Antuña, Spain; C. Ascani, Italy; A. Babhulkar, India; R. Barco, Spain; A. Bonetto, Italy; M. Borroni, Italy; E. Brilakis, Greece; A. Castagna, Italy; F. Castoldi, Italy; S. Giannotti, Italy; A. Giorgini, Italy; S. Gumina, Italy; G. Merolla, Italy; G. M. Micheloni, Italy; M. Novi, Italy; P. Paladini, Italy; G. Skaliczki, Hungary; G. Solarino, Italy; L. Tarallo, Italy; O. Verborgt, Belgium

FRIDAY

**9:00 AM NEW TECHNOLOGY IN SHOULDER ARTHROPLASTY
IN 2024 AND BEYOND**

Chairman: P. Randelli in collab. with Siot
Moderators: S. Antuña, F. Catani

- Intra-operative navigation is the preferable technique, **R. Barco**
- Patient specific planning 3D planning-my experience, **C. Ascani**
- Robot is the way to go, **J. Sperling**
- What is the role of AR and VR in shoulder arthroplasty, **E. Brilakis**
- My experience with robot in other joint, **F. Catani**

Discussion

10:00 AM CLINICAL CASE DISCUSSION

How do we optimize range of motion with reverse arthroplasty in 2024? Pre-op planning, component position, component size, post-op rehab, or all of the above? Case presentation and discussion

Chairman: E. Kohn in collab. with Siagascot
Moderators: R. Barco, F. Castoldi
Panel: P. Paladini, A. Bonetto, F. Francheschi, A. Giorgini, L. Tarallo

10:15 AM Coffee Break with Exhibitors

**10:45 AM TECHNIQUES IN ANATOMIC SHOULDER
ARTHROPLASTY: KEY STEPS FOR SUCCESS**

Moderators: S. Gumina, P. Paladini

- Key steps in glenoid exposure, **S. Antuña**
- Stemless anatomic shoulder arthroplasty, **A. Babhulkar (ONLINE)**
- All poly glenoid component, **G. Skaliczki**
- Metal back convertible glenoid, **R. Ranieri, A. Castagna**
- Hybrid glenoid fixation, **J. Sperling**

Discussion

**11:45 AM TECHNIQUES IN REVERSE SHOULDER
ARTHROPLASTY: TIPS AND ESSENTIAL STEPS**

Chairman: G. Solarino in collab. with AIR
Moderators: P. Randelli, S. Gumina

- How to tension the reverse shoulder arthroplasty, **F. Franceschi**
- Subscapularis repair in RSA: to repair or not repair, **S. Antuña**
- Stemless reverse arthroplasty, **S. Gumina**

- Reverse arthroplasty with a stemmed humeral component, **C. Ascani**
 - Management of glenoid bone deficiency with reverse, **J. Sperling**
- Discussion

12:45 PM Lunch with Workshops

2:15 PM CLINICAL CASE DISCUSSION

My patient returns 5 weeks after a primary reverse and is now dislocated- Why and What is next? **G. Micheloni**

Moderators: S. Antuña, G. Merolla

Panel: P. Paladini, R. Ranieri, G. Micheloni, G. Solarino, F. Franceschi, S. Giannotti

Take home message

**2:30 PM COMPLEX AND REVISION SHOULDER ARTHROPLASTY:
HOW TO MANAGE YOUR MOST CHALLENGING CASES**

Moderators: M. Novi, G. Skaliczki

- Hemiarthroplasty for proximal humerus fracture, **A. Babhulkar (ONLINE)**
- Reverse arthroplasty for fracture, **G. Merolla**
- Revision of anatomic shoulder arthroplasty to reverse arthroplasty, **J. Sperling**
- Management of severe glenoid bone loss, **C. Ascani**
- Management of severe humeral bone loss, **E. Brilakis**
- Neurologic complication in shoulder arthroplasty, **G. Skaliczki**

Discussion

Take home message

3:50 PM Coffee break with Exhibitors

**4:15 PM CURRENT CONCEPTS IN SHOULDER PHYSICAL THERAPY
IN 2024: HOW WE CAN OPTIMIZE THE OUTCOME FOR OUR
PATIENTS**

Chairman or direct speaker A. Bonetto in collab. with Federazione dei Fisioterapisti dello Sport

5:30 PM Conclusion, **J. Sperling and G. Porcellini**

SATURDAY

8:00 AM INTRODUCTION TO THE SESSION AND MODERATORS,
J. Sperling and G. Porcellini

8:10 AM 40-YEAR-OLD WITH ARTHRITIS AFTER INSTABILITY SURGERY. (introduce: M. Novi)
Moderators: L. Tarallo, M. Novi

- Arthroscopic management is my preferred approach, **R. Barco**
- Stemless anatomic shoulder arthroplasty is the way to go! **J. Sperling**
- Pyrocarbon hemiarthroplasty, **G. Porcellini**

Cross-fire discussion moderators: **L. Tarallo, M. Novi**

8:50 AM SURGICAL OPTIONS FOR B2 GLENOID IN A 70YEAR-OLD PATIENT WITH 15 DEGREES OF RETROVERSION: STANDARD TSA, AUGMENTED TSA OR RSA? (resident Prof. Giannotti)
Moderators: G Skaliczki, S. Giannotti

- High side ream with a standard anatomic glenoid componen, **R. Barco**
- Augmented anatomic TSA, **G. Porcellini**
- Reverse shoulder arthroplasty with 3D Planning, **O. Verborgt**
- Cross-fire discussion moderators: **G. Skaliczki, S. Giannotti**

9:30 AM MY PATIENT RETURNS 3 MONTHS AFTER REVERSE ARTHROPLASTY WITH A SCAPULAR SPINE FRACTURE- WHAT IS THE PREFERRED APPROACH?
Moderators: R. Barco, F. Catani
Panel: O. Verborgt, G. Merolla, P. Paladini, C. Ascani, S. Gumina

9:45 AM Coffee Break with exhibitors

10:15 AM MY PATIENT RETURNS 2 YEARS AFTER A SHOULDER ARTHROPLASTY WITH SEVEN DAYS OF DRAINAGE AND ERYTHEMA (resident Prof. Civinini)

- Arthroscopic management is my preferred approach, **R. Barco**
- How to scope a shoulder arthroplasty-technical tips, **R. Ranieri, A. Castagna**
- One stage is the preferred technique, **G. Merolla**
- Two stage reimplantation is the way to go, **P. Paladini**

Cross-fire discussion moderators: **O. Verborgt, C. Castoldi, R. Civinini**

11:00 AM MY PATIENT RETURNS 6 MONTHS WITH A PAINFUL ANATOMIC SHOULDER ARTHROPLASTY AND MILD GLENOID LUCENCY- WHY, HOW DO I EVALUATE, AND WHAT IS NEXT?

Moderators: O. Verborgt, C. Ascani
Panel: G. Skaliczki, R. Barco, A. Giorgini, P. Paladini, F. Franceschi

11:15 AM 65-YEAR-OLD WITH A MASSIVE ROTATOR CUFF TEAR AND INABILITY TO FULLY REPAIR

Moderators: R. Barco, G. M. Micheloni

- Tissue transfers and the balloon-what is the status in 2024? **P. Paladini**
- Don't worry, I can repair the cuff-let me show you how, **R. Ranieri**
- Reverse shoulder arthroplasty is the preferred technique, **O. Verborgt**

Cross-fire discussion moderators: **R. Barco, G. M. Micheloni**

12:00 PM 64-YEAR-OLD WITH A FOUR PART PROXIMAL HUMERUS FRACTURE

Moderators: C. Ascani, Brilakis

- Reverse shoulder arthroplasty is the preferred technique, **O. Verborgt**
- Non-operative treatment is preferred, **S. Gumina**
- ORIF is the way to go, **L. Tarallo**
- Hemiarthroplasty is the best treatment, **S. Giannotti**

Cross-fire discussion moderators: **F. Franceschi, E. Brilakis**

1:10 PM CONCLUSION REMARKS AND MEETING ADJOURN,
J. Sperling and G. Porcellini

VENUE:
Florence Learning Center,
Via dei Perfetti Ricasoli 78 - 50127 Firenze (FI)

LOCAL ORGANIZING COMMITTEE:
R. Civinini, S. Giannotti, M. Novi

ORGANIZING SECRETARIAT:
Congredior Srl – ID 737
Corso Amendola, 45 - 60123 ANCONA, ITALY
